

*EXTREMOCYSTIS DENDROSTOMI*, n. g., n. sp. A correction.

By S. B. SETNA, M.Sc. (Punjab), Ph. D. (Cantab) ; Royal Institute of Science, Bombay.

With reference to my paper on three new Gregarines published in the *Records of the Indian Museum*, Vol. XXXIII, Part II, pp. 203-210, a regrettable error has been committed in the enumeration of the diagnostic characters of *Extremocystis dendrostomi*. In the last line on p. 207 of this paper, *Dendrosto na* is referred to as a polychaete instead of a Gephyrean, which is the correct classification.
